Living Amenities

Mulberry Gardens Memory Care is a unique, lovely community dedicated solely to the care and support of people living with memory loss. Our friendly team will relieve you of the burden of offering physical care and the stress that comes with long days and nights providing for someone with memory loss. Our professional and compassionate staff understands that your loved one is as unique as your situation. The enhanced training that our team enjoys provides them with the patience and understanding to meet the physical and cognitive needs of all of our residents. We will help to create a routine that fits the need of your loved one.

A Mulberry Gardens employee knows to take the time to recognize when a person living with dementia is trying to communicate a need. A harsh word, a crisp reaction, or a refusal to accept care is part of the memory loss process and requires patience and understanding. Learning to communicate specifically with your loved one is part of the care and attention you'll love about our community. Bathing, dressing, medication management are just the beginning of the care we can offer at Mulberry Gardens Memory Care. Taste our meals, review our activities calendar, and speak with other families that will share the relief they've enjoyed at our community as well as the independence and purpose we've restored to their loved one.

The following amenities allow our residents to live the happy, healthy lives they deserve.

Three chef-prepared meals served each day

Caring health care staff 24/7

Scheduled transportation and shopping excursions

Purposeful activities, events and day trips

Weekly housekeeping and linen service

Free laundry facilities

No buy-in fees or leases

In addition to the amenities included in the base rent, additional services are available at an additional cost under our individualized service plans.

Caring Staff 24/7

Our caring and friendly health care services staff support our residents 24/7 to provide around-the-clock services as needed. Our health services staff includes a full time RN, LPN, and Resident Assistants. We offer a safe, secure and loving environment for those with Alzheimer's and other memory impairments. Our unique memory care program is staffed to provide a quality of life that recognizes and respects dignity, while encouraging social interaction and the joy of living in the moment. Our goal is to provide each resident with the unique personal care they need, while helping to maintain their independent lifestyle.

Enjoy the peace of mind of knowing that our 24/7 caring staff is available and committed to helping our residents whenever needed.

Culinary Services

At Mulberry Gardens, residents enjoy three chef-prepared meals daily, served restaurant-style. We take great pride in our scratch-based program as our chefs make just about everything including soups, pasta sauces, and breads from scratch.

To ensure our meals are both delicious and nutritious, our company taste tests every meal in a test kitchen before sending it to a nutritionist for approval. A chef also pours coffee at every table at the end of each dinner meal to gauge resident feedback. In addition, our chefs host regular meetings for residents to gather suggestions and their favorite recipes so we can offer a customized, local alternative menu.

In addition to celebrating all holidays including Thanksgiving, Christmas, Mother's Day, and Father's Day through special meals and beautiful buffets, residents often celebrate birthdays and other special occasions with their families over family style dishes in our private dining room.

Activities

The well-balanced and diverse activities program at Mulberry Gardens is influenced by the needs and wishes of our residents. Each and every day, residents can choose from a wide array of activities that promote physical and mental health.

We offer pet therapy, fitness classes, special holiday events, outings to exciting destinations within the local community, and so much more. Our goal is to engage residents with activities they enjoyed in the past while introducing them to new activities they may grow to love.

Whether a resident wants to join a knitting club, paint, garden, try a new restaurant, play the piano, or learn something new, they will have the opportunity to rediscover their purpose at Mulberry Gardens. Our activities program feels tailor-made to just about everyone.

Resident Life

At Mulberry Gardens Memory Care we cater to the specific needs of your loved one. Their interests, passions and hobbies are critical pieces of information we gather in order to guide them toward a fulfilling schedule of activities. We promote an active lifestyle with daily exercise class, music and pet therapy events and weekly arts and craft classes. We have a beautifully enclosed backyard with spacious walkways, where residents can partake in our garden club or enjoy the fresh air and beautiful landscape. We work hard to build trust and form emotional bonds with our residents that will enhance their lives for years to come.

Next Steps

We understand that change is difficult. At Mulberry Gardens Memory Care we want to make this transition as smooth as possible. The first step to start preparing for this change is to begin thinking about the transition.

Consider the Timing

If your loved one would benefit from specialized memory care programming tailored to their interests and abilities, compassionate care, or support with activities of daily living now, it may be time. Purpose, dignity and independence are still possible. If you're ready for that, you're ready for Mulberry Gardens Memory Care.

Consider Your Options

It's no secret that taking care of someone with memory loss can be exhausting. Consider another option that provides emotional relief to family and specialized programming, attention to care, and support with all activities of daily living for your loved one. If this option feels better than your current situation, then you're ready for Mulberry Gardens Memory Care.

Consider the Location

What's important about this next chapter? If you're looking for quality, caring staff that are trained specifically in the care and communication of a person living with dementia, in a community-focused solely on memory care, then you're ready for Mulberry Gardens Memory Care.

Testimonials

"Mulberry Gardens Memory Care has been a godsend to my father and our entire family. The compassion, respect, and individualized care shown to my dad are remarkable. Our family is truly confident we made the right decision in choosing Mulberry Gardens Memory Care for our 90-year-old father. We looked at numerous communities in the area and decided on Mulberry Gardens Memory Care based upon pricing, the very high staff to resident ratio, the beautiful brand-new facility, the chef-prepared meals, and so much more. Life is good!"

Karen Wronkovich

"When we came to the decision to move our mother to memory care we visited many communities, and Mulberry Gardens Memory Care was the obvious choice. It is clean, the layout is convenient for people with memory problems, and staff to resident ratio is higher than most communities. The staff is knowledgeable; they communicate well with family and treat our mother with dignity and respect."

Gary Allard

"I was looking for a place that felt more like home. A place where my husband would be safe, loved, well cared for and happy. I found all of this at Mulberry Gardens Memory Care. The entire staff is involved with the residents. They communicate with me and are patient and kind to my husband. We love it here!"
